

Pom Pom Instructions

Requirements- Double knitting yarn, 4 pronged fork, scissors.

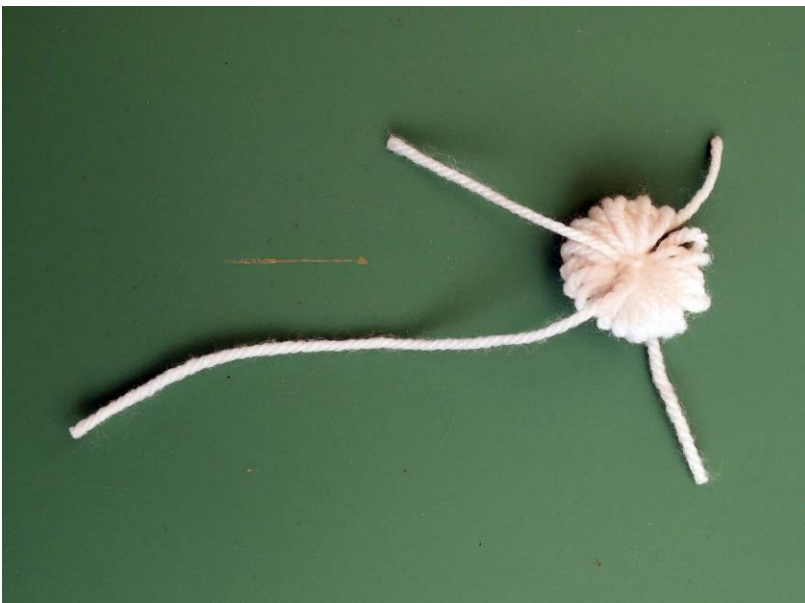

Take a 6 to 8 in length of yarn and thread through middle of the fork from front to back.

Holding the two ends of thread out of the way, wind your yarn about 20 times around the widest part of the fork.

Take the first thread from behind the fork to the front and tie the first part of a knot.

Remove the fork carefully and tie the second part of the knot and pull as tightly as you can.

Using a sharp pair of scissors cut each loop.

Trim into a ball shape, leaving the two ends of the knot. These ends will be used to attach the pom-pom to your project.
