Dear neighbour,

NOISY EMBANKMENT REPAIR

We're currently carrying out major earthwork repairs to a failed embankment to maintain a safe railway. Work started on **Wednesday 15 October at 07:30** and will run until **Sunday 10 November at 19:30**. As this is an emergency repair, we're sorry we couldn't give you advanced notification of the work.

To expedite the work as efficiently and safely as possible, Network Rail employees and contractors require immediate access onto and take occupation of the land. This means the boundary fencing will be removed and occupying the area where vehicles are currently parked temporarily. The type of equipment and machinery we use does mean some disturbance is unavoidable, but we will make every effort to minimise any unnecessary noise.

I've included maps on the next page to show where we'll be working. You'll also notice an emergency **half lane road and footpath closure** have been implemented at **Rowtree Road, Northampton, NN4 0NY**. This is to ensure all plant and materials are safely transported to site.

For more detail, please visit <https://www.networkrail.co.uk/communities/living-by-the-railway/>.

I would like to take this opportunity to thank you for your patience and understanding while this work takes place and please feel free to call our 24-hour helpline on **03457 11 41 41** if you have any further queries.

Yours faithfully
